Poly-Cotton Conventional-Style Oven Mitt with Sewn in Liner

PACK SIZE:
1 each

MAX TEMP 450°   STEAM   LIQUID   MACHINE WASH   10X GUARANTEED MORE DURABLE

MADE IN AMERICA

SPECIFICATION:
Poly-Cotton Conventional-Style Oven Mitt: Tucker Safety Products BurnGuard® Item #_____. Material: Poly-Cotton (color red). GussetGuard™ reinforcement. Standard size: Medium (additional sizes available upon request). Standard lengths: 12", 15", 18", and 24". Outer shell fabric permanently bonded with flame resistant, effective liquid and vapor barrier, that will not lose its protective qualities if exposed to 500ºF (260ºC) for 24 continuous hours. Insulation: 100% cotton terry that has been scoured, tumbled dry and heat set to eliminate 97% of shrinkage; designed to handle 450ºF (232ºC)*. Must be certified by NSF and meet NSF protocol # 96/011/480/2480 testing requirements for Class I oven mitts (thermal protection, an effective liquid/vapor barrier, durability, and cleanability).

Insulation threshold levels as determined by NSF P149 & EN407 testing standards, which will prove a "not less than 15 seconds to discomfort".
